

Article description **Order quantity**

41.300.00 Minimally Invasive Implantology Kit acc. to Prof. Palti consisting of: []

85.185.37 Washtray System []

46.007.00 Scalpel Handle, round, straight, **ZEPF-Line**, for blades Nr. 10-15 []

46.013.05 Microsurgical Scalpel Handle, **ZEPF-Line**, stainless steel, 13 cm []

41.864.40 Periosteal Elevator **ZEPF-Line**, round 4.2 mm / lance 3.8 mm []

41.862.14 Raspatory Combination Palti / Molt, with hole []

41.010.17TC-M Micro Needle Holder, straight, serrated, with TC inserts, 18 cm, **ZEPF-Line**, strong makro working end 11 x 2 mm, with lock, maximal thread size 4.0 []

46.431.14 Metzenbaum Dissecting Scissors, fig. 1, blunt / blunt, curved, 14 cm []

22.820.17TC Micro-anatomical Forceps, straight, 18 cm grooved tips, stainless steel, **ZEPF-Line**, guidance pin, with TC inserts []

22.810.17 Micro Tissue Forceps, straight, 17.5 cm, stainless steel, **ZEPF-Line**, with guidance pin, 1 x 2 teeth []

41.855.02Z Lucas Curette, fig. 2, double-ended, 3 mm, **ZEPF-Line** []

41.855.04Z Lucas Curette, fig. 4, double-ended, 5 mm, **ZEPF-Line** []

31.691.00 Depth Gauge acc. Palti, with graduation 8-10-12-14-16-18 mm, exchangeable, M4 x 0.5 []

46.640.13 Spencer Ligature Scissors, 13 cm []

19.651.14 Surgical Aspiration, Sinusline, titanium tip, Ø 3.0 mm, with slot []

85.251.00 Mixing Cup, stainless steel, with POM lid, Ø 4 cm (kit consists of 2 pieces) []

Optional accessory (not included in kit) **Order quantity**

24.212.01 Combination Instrument between probe 3A & periodontometer North Carolina CNC (1-15 in mm-steps), in **ZEPF BIONIK** Universal Handle black, M4x0.5, exchangeable []

26.194.03 **ZEPF BIONIK** Universal Handle, PEEK, for exchangeable inserts M2.5, single-ended, red-purple []

24.062.24 Lipcare Mouth Mirror, titanium, Ø 24 mm, Front-Surface, sterilizeable []

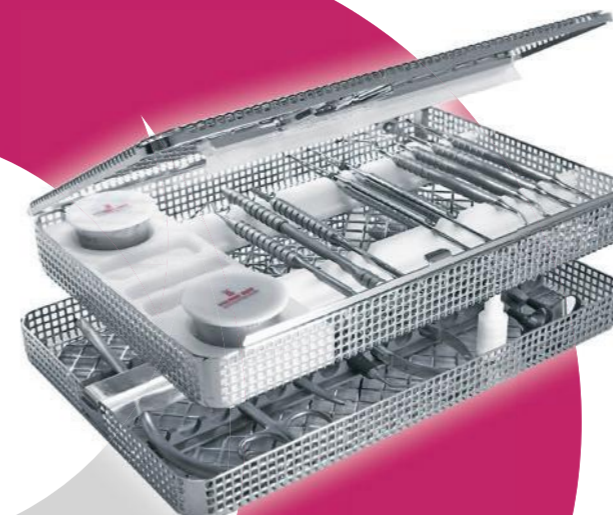

46.017.00 Beaver Blade, package à 6 pieces, sterile []

46.016.04 Microsurgical Scalpel Blades, fig. 64, package à 25 pieces, sterile []

46.014.15 Scalpel Blades, fig. 15, for handle no. 3, package à 100 pieces, sterile []

SERIES

41.300.00
Complete Minimally
Invasive Implantology Kit
acc. to Prof. Palti

41.010.17TC-M Micro Needle Holder,
straight, **ZEPP-Line**, lock, SpinLock,
Tungsten Carbide, 18 cm

SpinLock
TECHNOLOGY BY HELMUT ZEPF

46.431.14
Metzenbaum Dissecting Scissors,
fig. 1, blunt/blunt, curved, 14 cm

Minimally Invasive Implantology Kit

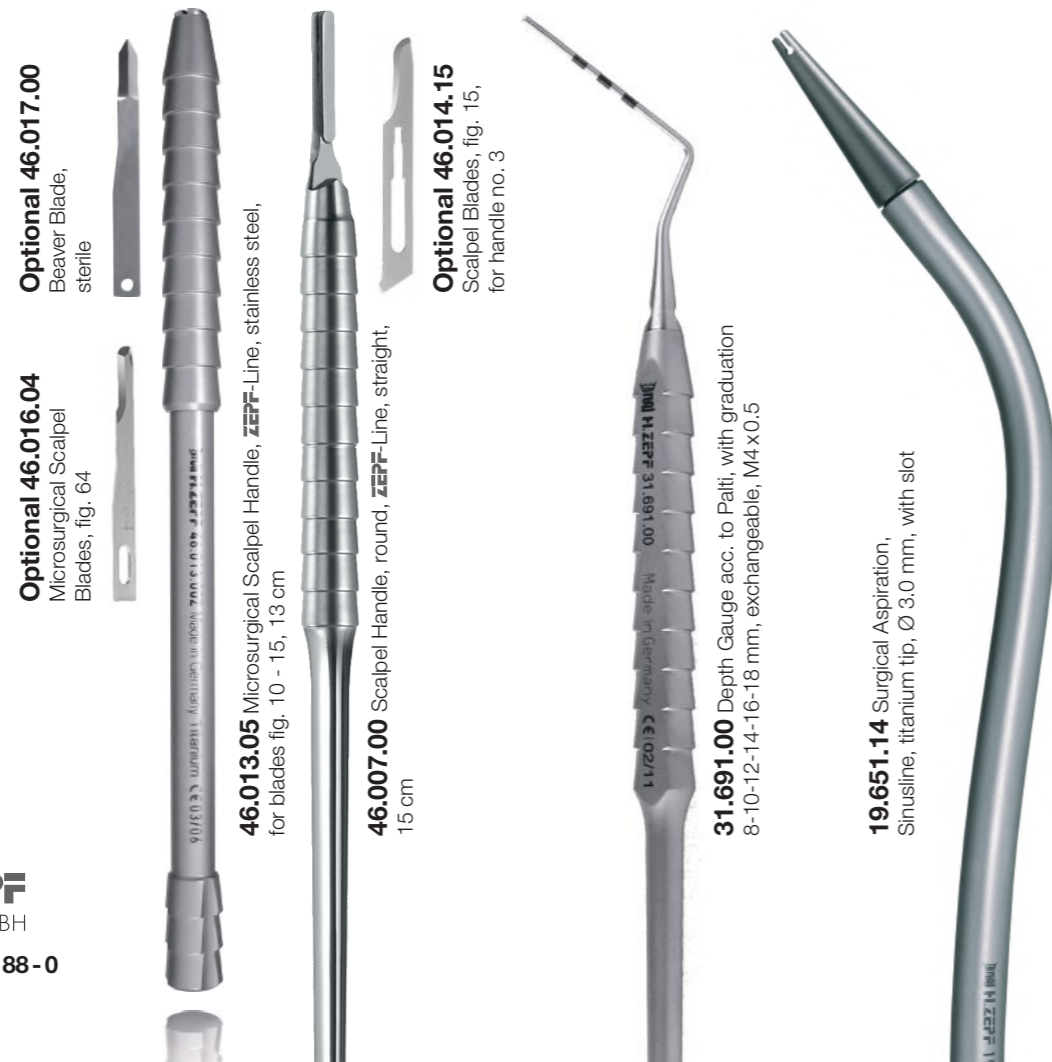

41.864.40
4.2 mm | | Periosteal Elevator, 17,5 cm, **ZEPP-Line** | | 3.8 mm

41.862.14
11 mm | | Raspatory Combination Palti / Molt, with hole, 17,5 cm | | 8 mm

41.855.02Z
Lucas Curette, fig. 2, double-ended, 3 mm, **ZEPP-Line**

41.855.04Z
Lucas Curette, fig. 4, double-ended, 5 mm, **ZEPP-Line**

Optional 24.212.01
Combination Instrument between periodontometer North Carolina CNC (1-15 in mm steps) & probe 3A,
in **ZEPP BIONIK** Universal Handle schwarz, M4 x 0.5, exchangeable

Optional 46.017.00
Beaver Blade,
sterile

Optional 46.016.04
Microsurgical Scalpel
Blades, fig. 64

46.013.05 Microsurgical Scalpel Handle, **ZEPP-Line**, stainless steel,
for blades fig. 10 - 15, 13 cm

46.007.00 Scalpel Handle, round, **ZEPP-Line**, straight,
15 cm

Optional 46.014.15
Scalpel Blades, fig. 15,
for handle no. 3

31.691.00 Depth Gauge acc. to Palti, with graduation
8-10-12-14-16-18 mm, exchangeable, M4 x 0.5

19.651.14 Surgical Aspiration,
Sinusline, titanium tip, Ø 3.0 mm, with slot

22.810.17 Micro Tissue Forceps, straight, 17.5 cm, stainless steel, **ZEPP-Line**, with guidance pin, 1 x 2 teeth

22.820.17TC Micro-anatomical Forceps, grooved tips with TC inserts, straight,
stainless steel, **ZEPP-Line**, 18 cm, with guidance pin

reddot design award
winner 2010

46.640.13 Spencer Ligature Scissors, 13 cm

Optional 26.194.03 **ZEPP BIONIK** Universal Handle,
PEEK, for exchangeable inserts M2.5, single-ended, red-purple

Optional 24.062.24.
Lipcare Mouth Mirror,
titanium, Ø 24 mm,
Front-Surface, sterilizeable

What is ?

TC stands for Tungsten Carbide,
a material whose superior
strength, wear resistance and
hardness are its major properties
that distinguish it from conven-
tional materials.

What is ?

Diamond coated tips for better
grip.

What is the
ZEPP SpinLock?

The parallel lock known from
standard needle holders has been
replaced with the new SpinLock
technology. This avoids that the
suture material gets caught up on
the needle holder.
